

REINER 940 REINER 940 MP Flexible marking on the move.

The REINER 940 is a mobile inkjet printer that marks products and packaging simply and quickly. It is also capable of automatic numbering, time and date. It can print text, logos and barcodes. This compact device is available with the proven MP inks. The quick-drying ink makes it possible to print safely and cleanly, even on nonporous surfaces such as metal or plastic.

Printing is done by rolling the REINER 940 over the object that is to be marked. When working on the move, the battery has sufficient capacity for up to 1,000 prints. Thus, small lot sizes can be printed quickly and efficiently.

By being able to apply the print directly to the surface of the object, the REINER 940 offers a high level of protection against tampering.

Print layouts can be designed on a PC using the specially developed software. Numbers, dates, times, text, logos and barcodes can easily be placed at the required positions using drag and drop. A total of four print layouts can be stored in the device. The software can be deployed on all standard Windows® operating systems. Mobile or stationary marking have never been easier!

REINER 940 REINER 940 MP The marking specialist...

With the REINER 940, production batches can be marked quickly and individually – mobile or stationary. In addition to number, date, time and text, this compact device can also print graphics and barcodes. With the MP ink, it is also possible to print on non-absorbent surfaces such as metal and plastic.

Description

- Number, date, time, text and graphics and barcodes, also multi-line prints
- Automatic advancing numbering and dating barcode
- Mobile or stationary marking
- Adapts to left- or right-handed users
- Up to four different print images can be stored in the system
- Print image can be created simply and quickly at the PC and transmitted via USB or Bluetooth
- Print on the goods to be marked by the REINER 940 over them, alternatively contactless
- Integrated capping for print cartridge
- The quick-drying MP ink facilitates printing on smooth surfaces such as metal and plastic
- Max. print area dimension:
(W x H) 140 mm (5 1/2") x 12.7 mm (1/2")

Technical data

- Dimensions REINER 940: 47 x 147 x 221 mm (L x W x H)
- Weight: approx. 530 g
- Max. print area dimension:
(W x H) 140 mm (5 1/2") x 12.7 mm (1/2")
- Max. print speed: 400 mm/s
- Print resolution: 300 dpi
- Battery capacity: up to 1.000 pints
- Print technology: inkjet

Print easily on different surfaces.

The software for the REINER 940 is self-explanatory: Create the required print layout on screen and transfer it by USB.
